

Learning at Home & Fun Engagement Strategies

Reading Comprehension

Parents can help their children learn in fun and simple ways. Cooking together teaches children about counting, measuring, and following instructions. Playing games like Snakes and Ladders improves number skills. Reading bedtime stories builds vocabulary and listening skills. Singing songs and rhymes helps with language development. Children also learn by helping with shopping, sorting laundry, or even setting the table. These small activities help children feel confident and ready for school.

1. Comprehension Questions. (Write short answers)

2. What can children learn while cooking? _____
3. What game helps with number skills? _____
4. What builds vocabulary? _____
5. What helps with language development? _____
